

TrakBOOK TECH UPDATE

EFFECTIVE DATE: 03/04/2015

LO206 Rocker Arm Minimum Length on P/N 557015

From Briggs & Stratton Racing:

Press Release:

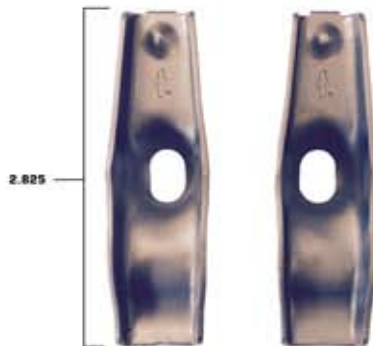

For immediate distribution 3/25/15

Effective immediately

Machining advancements in our final trim die is resulting in the small tab highlighted in the image below being reduced. This does not impact performance or require any attention by our racers. The new minimum simply reflects the reduction of the tab as shown.

Trim Tab Close-up

Overall Length

New Wording:

24F: Rocker Arm – overall length 2.825 inches minimum. Can be checked using a dial caliper.
